

ISABELLA NASSAR

SOFTWARE ENGINEER

It is an honor to present my proposal for the development of a high-quality website, designed to meet the unique needs of your business. This solution is conceived to offer you a modern and minimalist platform, tailored to your commercial goals and integrated with a database system that will facilitate the efficient management of your operations.

My brand specializes in providing high-quality digital solutions that include:

- Website development: Creation of customized web pages that are aesthetically appealing and minimalist, ensuring an exceptional user experience.
- Robust database management: Implementation of a secure and accessible database system, allowing for efficient handling of business information.

An affordable price is offered to make your business goals a satisfactory reality.

## DELIVERY AND PAYMENTS OF THE WEBSITE

Website Style: Full-page.

Website Theme: Service-based websites with a minimalist style.

Includes:

- Domain COM ([www.site.com](http://www.site.com))

Custom Website:

- Responsive design for optimal viewing on any device.
- Homepage with customizable sections.
- Subpages for services.
- Contact form.
- Testimonial section.
- Programmed buttons to switch between Spanish and English.
- Photo gallery to promote the product.
- Chat feature for direct customer contact.

Integrated Database:

- Client, product, and sales data management system.
- CRUD interface integrated to easily view, add, edit, and delete data.
- Controlled access for different user levels.

SOFTWARE ENGINEER

#### Admin Panel:

- Monitor website content and stored data.
- Real-time reports on registered activities.

Total Project Cost: €350,000

Web hosting payments can be made annually or monthly. If made annually, one month's payment is reduced.

- Annual Payment: 150,000 colones
- Monthly Payment: 12,500 colones

#### Description:

- Upon acceptance of the proposal, you will receive a 50% discount on the domain for free during the first year.
- To begin the website development, a 50% deposit must be made to a bank account, with the remaining 50% due upon website delivery.
- You will receive an email notification for updates. The cost of updates will be handled fairly and consistently with prior payments, ensuring that your website evolves without surprises in costs.
- The platform will be guaranteed to adapt to new market trends.

## FINAL DELIVERY WEBSITE

Upon completion of the process, you will have a fully responsive website, with databases that the administrator can easily manage, and a domain that will be fully integrated.

To validate your agreement with the website service quote, you are required to provide your full name, your ID number, and sign the document, either digitally or by scanning it.
